

Free Extreme Events & Climate Adaptation Planning Workshop for the Water Utility Sector

The U.S. Environmental Protection Agency's Climate Ready Water Utilities (CRWU) initiative is pleased to offer a new series of training workshop for drinking water, wastewater, and stormwater utilities. The workshops will feature hands-on training with EPA's Climate Resilience Evaluation and Awareness Tool (CREAT) to enhance water sector resilience to extreme weather events and long-term climate change impacts. Click the registration link for more information on each workshop and logistics.

[Registration Now Open!](#)

Who should attend?

- Drinking water, wastewater and stormwater utility operators
- Local, state, federal and tribal government officials
- Watershed planners
- Water sector associations

Workshop Dates & Locations

- Pueblo of Santa Ana, NM
 - June 3 & 4
- Portland, OR
 - June 23 & 24
- Des Moines, IA
 - July 14 & 15

Day 1	Day 2
Utility Perspectives on Extreme Events	CREAT Training: Interactive Session
Regional Climate Variability & Water Sector Impacts	Identifying Adaptation Strategies
Overview of CRWU	Advancing Implementation of Adaptation Measures
CREAT Training: Interactive Session	Funding Sources & Strategies
