

Christopher A. Impellitteri

Associate National Program Director (Acting)
Safe and Sustainable Water Resources Research Program
Office of Research and Development
U.S. Environmental Protection Agency
Cincinnati, OH

Chris Impellitteri currently serves as the Acting Associate National Program Director for U.S. Environmental Protection Agency's (EPA) Safe and Sustainable Water Resources Research Program. His current duties include planning and implementation of water related research in EPA's Office of Research and Development.

Mr. Impellitteri recently worked as a Research Scientist and Branch Chief in EPA-ORD's National Risk Management Research Laboratory's Water Supply and Water Resources Division. During that time, he contributed to the Hydraulic Fracturing Drinking Water Assessment and research in support of the Office of Water. His previous research focused on issues involving the removal of contaminants from water and wastewater.
