

Denise Keehner

Director

Office of Wetlands, Oceans and Watersheds

Office of Water

U.S. Environmental Protection Agency

Washington, DC

Denise Keehner is the Director of the Office of Wetlands, Oceans and Watersheds (OWOW) at the U.S. Environmental Protection Agency (EPA) within the Office of Water. OWOW promotes a watershed approach to manage, protect, and restore the water resources and aquatic ecosystems of the nation's marine and fresh waters. OWOW's programs include wetlands regulation and restoration, regulation of ocean dumping and vessel discharges, monitoring and assessment, including the National Aquatic Resource Surveys, nonpoint source pollution management, Total Maximum Daily Load oversight, and building capacity of State and local governments and watershed organizations. Prior to her move to OWOW, Ms. Keehner was the Director of the Standards and Health Protection Division in the Office of Science and Technology, where she was responsible for overseeing the National Water Quality Standards Program, the Fish Advisory Program and the Beach Program. Previously, she served at the Division Director level in EPA's Office of Pesticide Programs for several years. Ms. Keehner received a BA in Biology from University of Maryland.
