

Christine Gasparine
Industrial Pretreatment Operations Manager
Hanover Sewerage Authority
Whippany, NJ

Chris Gasparine is currently the Industrial Pretreatment Program Manager for Hanover Sewerage Authority which services the communities of Whippany and Cedar Knolls of Hanover Township, and portions of Morris Plains and Parsippany. Her major responsibilities include permit issuance, analytical report review, permit compliance determination, enforcement, and inspection for the permitted community and team member for surcharge monitoring and grease control program.

Ms. Gasparine began in the wastewater field in 1980 as a secondary treatment process operator and a year later was transferred into the laboratory as a technician for eight years before taking a job with Hanover Sewerage Authority as the Pretreatment Program and Laboratory Manager. The Pretreatment Program Manager and Laboratory Manager's positions were split in the early 1990's where she retained the Pretreatment Program Manager's position.

Ms. Gasparine graduated from Bloomfield College with a BS.
