

**Carrie Weir**  
CH2M HILL  
Pretreatment Coordinator  
Temple, TX

**Carrie Weir** is an Industrial Pretreatment Coordinator with CH2M HILL, Inc. in Temple, Tex. CH2M HILL is a consulting, design, design-build, operations, and program management firm based in Denver, Colo. with 28,000 employees in regional offices worldwide. Ms. Weir has over 18 years experience in the wastewater field.

Ms. Weir is responsible for the overall operation of the Pretreatment Program which includes permitting, inspecting, and testing of industrial users, emergency response and ensuring federal and state pretreatment mandates. The city of Temple pretreatment program is responsible for the protection of two wastewater treatment plants and oversees the regulations of all industrial users discharging to the two wastewater facilities.

Prior to her position as Pretreatment Coordinator, Ms. Weir held several positions within CH2M HILL, including wastewater management, laboratory and administration. Ms. Weir attended Temple College and Texas A & M University. She holds a Texas Class B Wastewater License and has been a member of the Texas Water Utilities Association since 1995.
