

Jennifer I. Moore

Environmental Services Coordinator
Trinity River Authority of Texas
Dallas, Texas

Jennifer Moore is the Environmental Services Coordinator for the Trinity River Authority of Texas (TRA). She is responsible for the management of TRA's multijurisdictional Pretreatment Programs for five wastewater treatment plants ranging in sizes of 3.9mgd to 162mgd. This currently includes pretreatment over sight of 37 Contracting Parties and 165 Significant Industrial Users (SIUs).

Ms. Moore began her career with TRA in 2004 as an Environmental Inspector, becoming the Coordinator for TRA's Pretreatment Division in 2008. Prior to joining TRA, she worked 5 years at Armstrong Forensic Laboratory located in Arlington, Texas as a Chemist and Second Shift Supervisor in the metal and industrial hygiene departments.

Ms. Moore has served the past year and half as the Vice-Chairman for the Pretreatment and Environmental Section of the Texas Water Utilities Association and has participated as an officer for the North Texas Organization of Pretreatment Professionals.

Ms. Moore received her BS in Chemistry from Texas Wesleyan University located in Fort Worth, Texas.
