

**Michael Le**

Pretreatment/Biosolids Coordinator

U.S. Environmental Protection Agency, Region 10

Seattle, WA

**Michael Le** is currently the pretreatment coordinator for U.S. Environmental Protection Agency (EPA), Region 10. He is also the Region 10 Biosolids Coordinator. Before coming to the water program, Mr. Le spent five years as an enforcement officer in toxic program. Mr. Le began his career at EPA as a state coordinator in the hazardous waste program in 1995.

Mr. Le served two years as an environmental educator in Peace Corps. He taught environmental education and worked with farmers groups on natural resource agricultural issues in a small village in rural Paraguay.

Mr. Le earned his BS in biology and Master in public administration from the University of Washington.
