

**David E. Rousse**

President

Association of the Nonwoven Fabrics Industry (INDA)

Cary, NC

**Dave Rousse** became INDA's President in late 2013 following over 15 years experience in nonwoven producing companies and an entire career in engineered materials since graduating from Dartmouth and its associated Engineering and Business schools. He was President, Hygiene/Medical Americas at Fiberweb in Simpsonville, S.C. before being promoted in 2007 to President of all of Fiberweb Americas and basing in Nashville.

Recently, Mr. Rousse served as Chief Executive Officer of HydroLogex LLC, a young Nashville-based designer/supplier of proprietary decentralized wastewater treatment systems in the CleanTech sector. Prior to Fiberweb, he was a Vice President at Monadnock Paper Mills, a manufacturer of nonwovens and specialty papers. He was also a Vice President & General Manager at Fibermark Inc., another specialty paper/ nonwovens producer. Prior to that he held a series of marketing/sales leadership positions at International Paper.
