

**John Newsome**

Sewer Systems Engineering Section Manager  
Division of Sewerage and Drainage  
City of Columbus Department of Public Utilities  
Columbus, OH

**John Newsome** serves as the Sewer Systems Engineering Section Manager for Department of Public Utilities, Columbus, Ohio. His responsibilities include the budgeting, staff allocation and schedule conformance of all capital projects related to storm and sanitary in the City's collection system. As part of this role, he serves as a member of the Blueprint Columbus committee, Columbus' integrated plan which incorporates green infrastructure in addition to gray improvements to meet the City's consent order requirements.

Prior to joining the City, Mr. Newsome worked for Stantec upon graduating from Ohio State University in 2000. He is a professional engineer in the State of Ohio with a BS in Natural Resource Management, Civil Engineering and a MBA.
