

Jan M. Pickrel

National Pretreatment Program Coordinator
Water Permits Division
Office of Wastewater Management
Office of Water
U.S. Environmental Protection Agency
Washington, DC

Jan Pickrel is the U.S. Environmental Protection Agency's (EPA) National Pretreatment Program Coordinator in the Water Permits Division of the Office of Wastewater Management. During her 17 years at EPA, she has been coordinating the pretreatment and NPDES implementation issues across other EPA offices, including topics such as the development of technology-based effluent guidelines and categorical standards, emerging contaminants of concern, enforcement, and training.

Prior to coming to EPA in 1997, Ms. Pickrel worked for 13 years in Virginia Department of Environmental Quality's (VDEQ) Northern Virginia Regional Office, where she served as the Pretreatment Coordinator and Senior Environmental Engineer with the region's Virginia Pollutant Discharge Elimination System Program. During her tenure at VDEQ, she also served as the Chief Regional Geologist and has extensive experience in land application of biosolids, ground water and surface water investigations, and oil spill remediation efforts.

Ms. Pickrel received her BS in Geology from the College of William & Mary and a Masters of Engineering Administration from George Washington University.
