

Kevin Daggett

Stormwater Section Manager
Department of Municipal Development
City of Albuquerque
Albuquerque, NM

Kevin Daggett is the Manager of the Stormwater Drainage Section at the City of Albuquerque's Department of Municipal Development. He is responsible for City's compliance with its MS4 permit issued by U.S. Environmental Protection Agency (EPA) Region 6. He is also responsible for the design, construction and maintenance of the City's drainage and flood control facilities.

Prior to working with the City of Albuquerque, Mr. Daggett was the Storm Water Quality Engineer for the Albuquerque Metropolitan Arroyo Flood Control Authority (AMAFCA). During his time at AMAFCA, he oversaw the design and construction of many large-scale, stand-alone water quality facilities. In addition, he was responsible for AMAFCA's compliance with the EPA's MS4 Permit for the Albuquerque area.

Mr. Daggett has a MS in Civil Engineering from New Mexico State University and a BS in Geology from Colorado Mesa University. He is a registered Professional Engineer and Professional Surveyor with over 30 years of experience.
