

Raymond J. Marshall
Executive Director
Narragansett Bay Commission
Providence, RI

Ray Marshall assumed Executive Directorship of the Narragansett Bay Commission (NBC) in January 2007. He is responsible for the all aspects of the NBC's operation including strategic planning, staff development and retention, budget development and oversight, financial reporting, engineering/construction capital planning and operation of the wastewater collection/treatment facilities.

Mr. Marshall began working for the NBC in 1992 as Deputy Director. Since joining the Commission, he has provided direct management for the agency's extensive engineering and construction activity, including Phase I of the \$350 million Combined Sewer Overflow (CSO) project, the \$65 million upgrade of the NBC's Bucklin Point Wastewater Treatment Facility, and the \$60 million nitrogen reduction project at the Field's Point Wastewater Treatment Facility. Mr. Marshall has coordinated the development of the agency's comprehensive Asset Management Program and Strategic Plan.

Mr. Marshall is a member of the Board of Directors for the National Association of Clean Water Agencies and was named Engineer of the Year by the Rhode Island chapter of the American Society of Civil Engineers in 2002. He earned a BS from the University of Rhode Island in Civil Engineering, and a MS in Environmental Engineering from Northeastern University. Prior to his tenure at the NBC, he was employed in the consulting engineering profession and by the Town of Burrillville. Mr. Marshall has also received his Professional Engineer certificate.
