

The *Water Resources Utility of the Future... A Call for Federal Action* is based on *The Water Resources Utility of the Future... A Blueprint for Action*. The *Blueprint* was a cooperative effort between NACWA, the Water Environment Research Foundation (WERF), and the Water Environment Federation (WEF), and defines the evolving environmental, economic, and social roles that clean water utilities are playing in their communities. You can download a copy of *The Water Resources Utility of the Future... A Blueprint for Action* at www.nacwa.org/blueprint.

The National Association of Clean Water Agencies (NACWA) is the leading advocate for responsible national policies that advance clean water. NACWA represents the collective interests of America's clean water utilities – dedicated public servants and true environmental champions. For over 40 years, NACWA has been the clean water community's voice in Congress, at the U.S. Environmental Protection Agency, in the media and in the courts.
